Ruthenium-palladium on the catalytic behaviour of ruthenium 1

## Subject Index

### Adsorption

Coal liquefaction using an intermetallic hydride to distribute hydrogen and catalyze the reaction 53

### Adsorption

Support and alkali promotion effects on the surface chemistry of nickel/silica catalysts 105

### Alkali metals

Mechanism for coking of coal liquefaction catalysts involving basic nitrogen compounds, sodium and catalyst acid sites 199

### Alkali promotion

Support and alkali promotion effects on the surface chemistry of nickel/silica catalysts 105

### Bimetallic catalysts

Ruthenium-palladium catalysts: The effect of palladium on the catalytic behaviour of ruthenium 1

### Bimetallic catalysts

Nature of the metallic phase in platinum-germanium/alumina catalysts 23

### Carbon monoxide oxidation

Structure and activity of chromium-promoted Raney copper catalysts for carbon monoxide oxidation 11

### Carbon monoxide oxidation

Preparation and characterization of thermostable silver on  $\alpha$ -alumina catalysts 133

### Carbon monoxide oxidation

Hydrothermal stability of silica as a support for platinum in an oxidation catalyst 251

### Catalyst characterization (cyclic voltametry)

Effect of lead on the activity of platinum catalysts 261

### Catalyst characterization (ESR)

Investigation of the features of zinc oxide-based catalysts for propylene dehydroaromatization 179

### Catalyst characterization (hydrogen adsorption)

Ruthenium-palladium catalysts: The ef-

fect of palladium on the catalytic behaviour of ruthenium 1

### Catalyst characterization (nitrogen adsorption)

Hydrothermal stability of silica as a support for platinum in an oxidation catalyst 251

### Catalyst characterization (other)

Selective oxidation of methane over Vycor glass, quartz glass and various silica, magnesia and alumina surfaces 33

### Catalyst characterization (SEM)

Preparation and characterization of thermostable silver on  $\alpha$ -alumina catalysts 133

### Catalyst characterization (TPR)

Characterization and catalytic activity of copper/alumina methanol synthesis catalysts 165

### Catalyst characterization (XPS, Raman spectroscopy, surface potential)

Silica supported molybdena catalysts. Characterization and methane oxidation 117

### Catalyst characterization (XRD, SEM)

Structure and activity of chromium-promoted Raney copper catalysts for carbon monoxide oxidation 11

### Catalyst preparation ("anchoring")

Preparation and characterization of thermostable silver on  $\alpha$ -alumina catalysts 133

### Catalyst preparation (evaporation)

Effects of preparation parameters on the catalytic nature of potassium promoted Cu-Co-Cr higher alcohol catalysts 153

### Catalyst preparation (hydrogen treatment)

Coal liquefaction using an intermetallic hydride to distribute hydrogen and catalyze the reaction 53

### Catalyst preparation (incipient wetness)

Characterization and catalytic activity of copper/alumina methanol synthesis catalysts 165

### Catalyst preparation (leaching)

Structure and activity of chromium-promoted Raney copper catalysts for carbon monoxide oxidation 11

- Catalyst preparation (thermal decomposition)  
Investigation of the features of zinc oxide-based catalysts for propylene dehydroaromatization 179
- Catalyst preparation (vapour deposition)  
Chemical vapour deposition method for fine-control of the pore-opening size of Namordenite 95
- Catalyst preparation (wet impregnation)  
Nature of the metallic phase in platinum-germanium/alumina catalysts 23
- Catalyst preparation (wet impregnation)  
Support and alkali promotion effects on the surface chemistry of nickel/silica catalysts 105
- Catalyst preparation (wet impregnation)  
Silica supported molybdena catalysts. Characterization and methane oxidation 117
- Catalyst preparation (wet impregnation, ion exchange)  
Hydrothermal stability of silica as a support for platinum in an oxidation catalyst 251
- Chromium-copper  
Structure and activity of chromium-promoted Raney copper catalysts for carbon monoxide oxidation 11
- Coal liquefaction  
Coal liquefaction using an intermetallic hydride to distribute hydrogen and catalyze the reaction 53
- Coal liquefaction  
Mechanism for coking of coal liquefaction catalysts involving basic nitrogen compounds, sodium and catalyst acid sites 199
- Coke formation  
Ruthenium-palladium catalysts: The effect of palladium on the catalytic behaviour of ruthenium 1
- Coke formation  
Mechanism for coking of coal liquefaction catalysts involving basic nitrogen compounds, sodium and catalyst acid sites 199
- Copper-cobalt-chromium  
Effect of preparation parameters on the catalytic nature of potassium promoted Cu-Co-Cr higher alcohol catalysts 153
- Copper/alumina  
Characterization and catalytic activity of copper/alumina methanol synthesis catalysts 165
- Deactivation  
Mechanism for coking of coal liquefaction catalysts involving basic nitrogen compounds, sodium and catalyst acid sites 199
- Ethene oxidation  
Support participation in chemistry of ethylene oxidation on silver catalyst 223
- EUROPT-1  
Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity 239
- Exhaust catalyst  
Exhaust-catalyst development for methanol-fueled vehicles. III. Formaldehyde oxidation 73
- Formaldehyde oxidation  
Exhaust-catalyst development for methanol-fueled vehicles. III. Formaldehyde oxidation 73
- Higher alcohols synthesis  
Effect of preparation parameters on the catalytic nature of potassium promoted Cu-Co-Cr higher alcohols catalysts 153
- Hydrogenolysis  
Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity 239
- Hydrotreating catalyst  
Effect of oxygen concentration on temperature runaway during regeneration of hydrotreating catalyst 189
- Hydrotreating catalyst  
Mechanism for coking of coal liquefaction catalysts involving basic nitrogen compounds, sodium and catalyst acid sites 199
- Iron-titanium  
Coal liquefaction using an intermetallic hydride to distribute hydrogen and catalyze the reaction 53

## Kinetics

- Coal liquefaction using an intermetallic hydride to distribute hydrogen and catalyze the reaction 53

## Lead

- Effect of lead on the activity of platinum catalysts 261

## Maleic acid hydrogenation

- Effect of lead on the activity of platinum catalysts 261

## Methane oxidation

- Selective oxidation of methane over Vycor glass, quartz glass and various silica, magnesia and alumina surfaces 33

## Methane oxidation

- Silica supported molybdena catalysts. Characterization and methane oxidation 117

## Methanol oxidation

- Exhaust-catalyst development for methanol-fueled vehicles. III. Formaldehyde oxidation 73

## Methanol synthesis

- Characterization and catalytic activity of copper/alumina methanol synthesis catalysts 165

## Methyltetrahydrofuran

- Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity 239

## Molybdena/silica

- Silica supported molybdena catalysts. Characterization and methane oxidation 117

## Mordenite

- Chemical vapour deposition method for fine control of the pore-opening size of Na-mordenite 95

## Nickel-molybdena/alumina

- Effect of oxygen concentration on temperature runaway during regeneration of hydrotreating catalyst 189

## Nickel/silica

- Support and alkali promotion effects on the surface chemistry of nickel/silica catalysts 105

## Platinum

- Effect of lead on the activity of platinum catalysts 261

## Platinum-germanium/alumina

- Nature of the metallic phase in platinum-germanium/alumina catalysts 23

## Platinum/alumina

- Hydrothermal stability of silica as a support for platinum in an oxidation catalyst 251

## Platinum/silica

- Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity 239

## Platinum/silica

- Hydrothermal stability of silica as a support for platinum in an oxidation catalyst 251

## Poisoning

- Effect of lead on the activity of platinum catalysts 261

## Pore size

- Chemical vapour deposition method for fine-control of the pore-opening size of Na-mordenite 95

## Propylene dehydroaromatization

- Investigation of the features of zinc oxide-based catalysts for propylene dehydroaromatization 179

## Quartz glass

- Selective oxidation of methane over Vycor glass, quartz glass and various silica, magnesia and alumina surfaces 33

## Raney copper

- Structure and activity of chromium-promoted Raney copper catalysts for carbon monoxide oxidation 11

## Regeneration

- Effect of oxygen concentration on temperature runaway during regeneration of hydrotreating catalyst 189

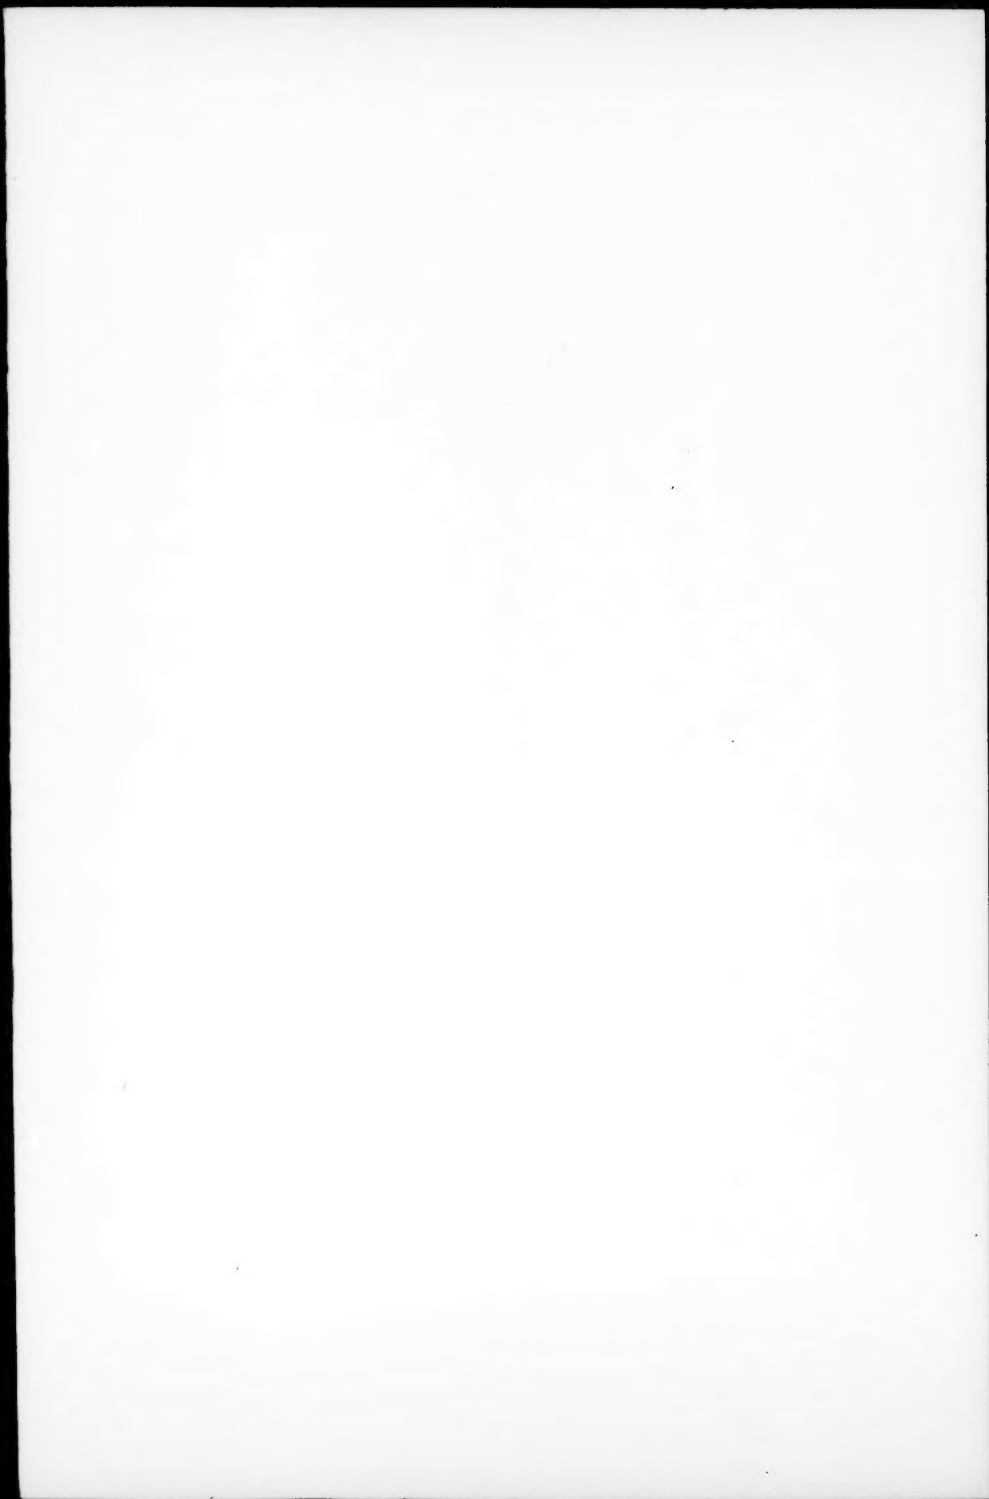

## Ruthenium-palladium

- Ruthenium-palladium catalysts: The effect of palladium on the catalytic behaviour of ruthenium 1

## Selectivity (asphaltenes)

- Coal liquefaction using an intermetallic hydride to distribute hydrogen and catalyze the reaction 53
- Selectivity (alkanes)
  - Chemical vapour deposition method for fine-control of the pore-opening size of Na-mordenite 95
- Selectivity (formaldehyde)
  - Silica, supported molybdena catalysts. Characterization and methane oxidation 117
- Selectivity (alcohols)
  - Effect of preparation parameters on the catalytic nature of potassium promoted Cu-Co-Cr higher alcohol catalysts 153
- Selectivity (benzene)
  - Investigation of the features of zinc oxide-based catalysts for propylene dehydroaromatization 179
- Selectivity (other)
  - Support participation in chemistry of ethylene oxidation on silver catalyst 223
- Selectivity (1-pentanol)
  - Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity 239
- Self-poisoning
  - Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity 239
- Silver
  - Support participation in chemistry of ethylene oxidation on silver catalyst 223
- Silver/alumina
  - Preparation and characterization of thermostable silver on  $\alpha$ -alumina catalysts 133
- Sintering
  - Hydrothermal stability of silica as a support for platinum in an oxidation catalyst 251
- Structure sensitivity
  - Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity 239
- Support effect
  - Support participation in chemistry of ethylene oxidation on silver catalyst 223
- Syngas conversion
  - Effect of preparation parameters on the catalytic nature of potassium promoted Cu-Co-Cr higher alcohol catalysts 153
- Temperature runaway
  - Effect of oxygen concentration on temperature runaway during regeneration of hydrotreating catalyst 189
- Thermostability
  - Preparation and characterization of thermostable silver on  $\alpha$ -alumina catalysts 133
- Vycor glass
  - Selective oxidation of methane over Vycor glass, quartz glass and various silica, magnesia and alumina surfaces 33
- Zeolites
  - Chemical vapour deposition method for fine-control of the pore-opening size of Na-mordenite 95
- Zinc oxide
  - Investigation of the features of zinc oxide-based catalysts for propylene dehydroaromatization 179

AN INTERNATIONAL JOURNAL DEVOTED TO CATALYTIC SCIENCE AND ITS APPLICATIONS

VOL. 44, NO. 1-2

CONTENTS

NOVEMBER 15, 1988

*(Abstracts/Contents Lists published in API Abstracts/Catalysts & Catalysis, Chemical Abstracts, Current Contents/Physical, Chemical & Earth Sciences, Current Contents/Engineering, Technology & Applied Sciences, Engineering Index, Metals Abstracts, Science Citation Index, Theoretical Chemical Engineering Abstracts, Automatic Subject Citation Alert and SCISEARCH)*

## *Applied Catalysis Letters*

Deactivation of the Pt-Re/ $\text{Al}_2\text{O}_3$  catalytic functions during a commercial cycle

J.M. Parera, C.A. Querini and N.S. Figoli (Santa Fe, Argentina) ..... L1

Ruthenium-palladium catalysts: The effect of palladium on the catalytic behaviour of ruthenium

M. Viniegra, V. Arroyo and R. Gómez (Mexico) ..... 1

Structure and activity of chromium-promoted Raney copper catalysts for carbon monoxide oxidation

J. Laine, Z. Ferrer, M. Labady, V. Chang and P. Frías (Caracas, Venezuela) ..... 11

Nature of the metallic phase in platinum-germanium/alumina catalysts

S.R. de Miguel, O.A. Scelza and A.A. Castro (Santa Fe, Argentina) ..... 23

Selective oxidation of methane over Vycor glass, quartz glass and various silica, magnesia and alumina surfaces

G.N. Kastanas, G.A. Tsigdinos and J. Schwank (Ann Arbor, MI, U.S.A.) ..... 33

Coal liquefaction using an intermetallic hydride to distribute hydrogen and catalyze the reaction

S.D. Johnson and J.E. Smith, Jr. (Huntsville, AL, U.S.A.) ..... 53

Exhaust-catalyst development for methanol-fueled vehicles: III. Formaldehyde oxidation

R.V. McCabe and P.J. Mitchell (Warren, MI, U.S.A.) ..... 73

Chemical vapour deposition method for fine-control of the pore-opening size of Na-mordenite

T. Hibino, M. Niwa, A. Hattori and Y. Murakami (Nagoya, Japan) ..... 95

Support and alkali promotion effects on the surface chemistry of nickel/silica catalysts

M.V. Ciocco and D.G. Blackmond (Pittsburgh, PA, U.S.A.) ..... 105

Silica supported molybdena catalysts. Characterization and methane oxidation

Y. Barbaux, A.R. Elamrani, E. Payen, L. Gengembre, J.P. Bonnelle and B. Grzybowska (Villeneuve d'Ascq, France) ..... 117

Preparation and characterization of thermostable silver on alfa-alumina catalysts

G.R. Meima (Terneuzen, The Netherlands), M.G.J. van Leur, A.J. van Dillen and J.W. Geus (Utrecht, The Netherlands), J.E. Bongaarts, F.R. van Buren, L.J.G.M. Derks and K. Delcour (Terneuzen, The Netherlands) ..... 133

Effect of preparation parameters on the catalytic nature of potassium promoted Cu-Co-Cr higher alcohol catalysts G.R. Sheffer and T.S. King (Ames, IA, U.S.A.) .....	153
Characterization and catalytic activity of copper/alumina methanol synthesis catalysts W.R.A.M. Robinson and J.C. Mol (Amsterdam, The Netherlands) .....	165
Investigation of the features of zinc oxide-based catalysts for propylene dehydroaromatization R. Spinicci and A. Tofanari (Florence, Italy) .....	179
Effect of oxygen concentration on temperature runaway during regeneration of hydrotreating catalyst E. Furimsky (Ottawa, Ont., Canada) .....	189
Mechanism for coking of coal liquefaction catalysts involving basic nitrogen compounds, sodium and catalyst acid sites B.D. Adkins, D.R. Milburn, J.P. Goodman and B.H. Davis (Lexington, KY, U.S.A.) .....	199
Support participation in chemistry of ethylene oxidation on silver catalysts J.K. Lee, X.E. Verykios and R. Pitchai (Philadelphia, PA, U.S.A.) .....	223
Hydrogenolysis of methyltetrahydrofuran on platinum. II. Effects of self-poisoning and evaluation of structure sensitivity U. Gennari, R. Kramer and H.L. Gruber (Innsbruck, Austria) .....	239
Hydrothermal stability of silica as a support for platinum in an oxidation catalyst I.-M. Axelsson, L. Löwendahl and J.-E. Otterstedt (Gothenburg, Sweden) .....	251
Effect of lead on the activity of platinum catalysts E. Lamy-Pitara, L. Lghouzouani, M. Piktas and J. Barbier (Poitiers, France) .....	261
<i>News Brief</i>	
Catalysis in Argentina .....	270
Meritorious award of catalysis society of Japan for Prof. I. Matsuura .....	272
Hydrocracking, catalytic reforming and FCC .....	272
Kinetics of catalytic reactions .....	274
Methane coupling — homogeneous or heterogeneous .....	275
Sulphur tolerant reforming catalysts .....	275
Meeting on selective oxidation .....	276
Calendar of Forthcoming Events .....	276
Meeting Report .....	279
Author Index .....	281
Subject Index .....	283
Contents of recent issues of Journal of Molecular Catalysis .....	287
